Schools of Undergraduate &
Postgraduate Nursing

Our Visions

“We aim to develop the Faculty to be the center of nursing education and development in both national and international levels. Our highest priority is to graduates excellent, morale, religious, independent, and innovative nurses with expertise in infectious tropical diseases“.

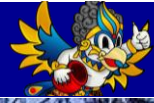

Welcome to the Faculty of Nursing

We invite you to take a closer look at our programs that are focused on providing clinical and community health nursing education, research-based, and up-hold social-religious morale to promote quality health and address global challenges in the field of nursing.

We offer the opportunity to learn about nursing with the environment and atmosphere best to achieve your lifelong goals.

Prof. Dr. Nursalam, M.Nurs (Hons)
(Dean)

About The Faculty

**Our Missions and
Concerns**

OUR MISSIONS

To ensure accredited nursing education that is able to generate entrepreneurial, excellent, and competitive nurses.

To foster credible and professional bureaucracy that is focused on optimizing the available resource, and quality improvement and supportive information system and technology

To encourage interests in both national and international publications, as well as devoting the results to provide the best possible social services that are beneficial for the community

To develop mutually beneficial national and international cooperation and partnership, and enhance the role of an alumni network for the quality improvement of faculty of nursing

To create an independent holding that generates research-based product in ensuring the faculty sustainability.

To developing evidence-based and inter-professional education learning model through the active participation and development of the lecturer with the Airlangga University Hospital

Dr. Kusnanto, S.Kp., M.Kes
(Vice Dean 1 for Academic,
and Student Affairs)

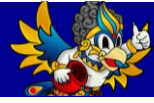

Current Students

Our students are provided with friendly and inclusive environment. We support their learning activities through the provision of free Internet access, decent skill-laboratories, comfortable reading rooms and workstations, and libraries. As part of Indonesia's top ten universities, we also provide free access to international journals and databases to support their achievements.

Our strong commitment to foster a smarter Indonesia and beyond is implemented through hundreds of networks that facilitate scholarships and financial aids for incoming local and international students.

As part of adult-learning provider, our staff and senior students are experts in gaining new students and colleagues to empower their selves by joining boards and committees. Our staff in fields of nursing have made student social service, adventurousness, and many other health-related activities achieved grants and awards both in local and international events.

Located in the center-heart of the city of Surabaya have made us easily accessible by various modes of transportation. The vibrant atmosphere of the city also provides our students a broad experience and viewpoints of learning and living outside their home of origins. Their study in our schools have impacts to the surrounding financial growth and created new entrepreneurs, which in turn influences our students to become one.

What they say

"I knew the school is reputable for graduating entrepreneurial and open-minded and skillful nurses, and they are now sitting in strategic positions. Now I know that not only the graduates, but also current students are provided with wide opportunities to broaden experience, studying abroad. I wish to have that chance in the near future!"

(Tutik Malichah – UG Student, Indonesia)

"Faculty of Nursing Universitas Airlangga has given me experiences in learning different cultures and on how people respect each other difficulties. I was welcomed by humble staff and friendly students as new buddies. Thank you!"

(Shunya Mori - Visiting Student)

"I am so proud to be the student of faculty of nursing, Universitas Airlangga. I had a great experience while finishing my master in this University. All of the teachers, my Indonesian friends and faculty members were kindly and very helpful. I won't forget these times along my life. Thank so much Universitas Airlangga!"

(Sa Sa Aung- PG Master, Myanmar)

"I would like to express appreciation to all staff in faculty of nursing Universitas Airlangga. Now I have completed my 2-year master degree. Throughout the program the faculty was helpful in all possible ways. My humble thanks to the Government of Indonesia, Universitas Airlangga Rector, Deans, all faculty members, and students whom all now my families".

(Madiha - PG Master, Pakistan)

Career Opportunities

Dr. Ah. Yusuf, S.Kp., M.Kep
(Vice Dean 3 for Research & Publication,
Social Service and Partnership)

Our strong links with alumni and health services both throughout Indonesia and several partnering international institutions have provided graduates with wide range of career opportunities. Our latest tracer study shows that graduates from the Faculty of Nursing Universitas Airlangga are almost only 3 months time of waiting to get their first job.

Our graduates are spread not only work and hold strategic positions in hospitals and primary health services, but also in related fields like health insurances, Emergency Response Teams and Ambulance, and Quality Assurance managements in hospitals. They are also working in developed countries as nurses such as in Japan, UAE, and others.

Not only as workers, our graduates are also building their own corporates as entrepreneurs such as health and wound practitioners, trainers, and in other wider fields of health practice.

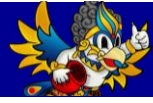

Before you get here

We facilitate you to set your own goals within the expanding sphere of nursing. It is our focus to graduate you as a nurse with recognizable standard and excellent morale.

If you are completing year 12 or finishing your diploma or bachelor and thinking of continuing your degree in nursing, the Universitas Airlangga Faculty of Nursing provide you with three entering pathways that match to your background.

The Faculty of nursing is more to provide student centered learning to guide you achieve the set goals. Our staff and lecturers put high standards of learning outcomes and are helpful and motivational. Their decent background will introduce you to the world of nursing that are filled with expectations and challenges

Future Students

Nursing is fundamentally a professional and integral to health care and delivery. We are challenged to address the unstoppable evolution of health demand.

We are active agents to promote health, prevent illness, assist patient recovering and improve their quality life.

Our school welcomes you to seek at a program that is potential for your expectation.

Undergraduate BSN, Nurse Program

Our bachelor program offers you to participate in rigorous and intense learning experience. We provide a real life-long learning experiences in settings of hospitals, community and primary health services, and other professional bodies to ensure your preparedness to become a nurse. This program opens in two academic intakes, the regular and non-regular schemes. The regular scheme is designed for candidates that are graduated from high schools (year 12).

The non-regular intake is designed for diplomas who want to upgrade into a bachelor degree.

At the end of these programs you will earn a Bachelor of Nursing and Indonesian National-Registered Nurse.

Postgraduate Master with Research Programs

Our concern in fostering continuous education for nurses offers to a higher level of study. Our Master programs, are open for bachelors in nursing and related field of study. We offer minors in Medical and Surgical Nursing, Management (Administrative) Nursing, Community Health Nursing, and Mental Health Nursing.

Learning Scheme

“We put a high concern on providing the best experience in learning methods and approaches.”

Eka M.M.Has., S.Kep.Ns., M.Kep.
(Vice Dean 2 for Human Resource,
Treasury, and Information System)

What makes us your choice?

The Faculty of Nursing was first established in 1999 as a center to enhance nurses' education in eastern Indonesia. In its first years, the faculty was a school under the faculty of Medicine that responsible to upgrade diploma in Nursing into Bachelor and Registered Nurses. By the year 2008, the school started to evolve as an individual Faculty and develop its own programs.

Today, the Faculty of Nursing Universitas Airlangga is renowned for the wide and rich collections of research study and social service. The high standards of research outcomes are reflected both in students and staff's academic activities and products that some are patented as methods, media, and aids in supporting nursing practice, education, and services.

Setho Hadisuyatmana
(Faculty Ambassador)

Our emphasis on providing the best learning experiences are aimed at facilitating learners to achieve their lifelong goals
